·}· Daily Coding Problem

Good morning! Here's your coding interview problem for today.

This problem was recently asked by Google.

Given a list of numbers and a number k , return whether any two numbers from the list add up to k .

For example, given [10, 15, 3, 7] and k of 17 , return true since 10 + 7 is 17 .

Bonus: Can you do this in one pass?
